

Birth of Southern Africa

A man with dark skin and short hair is shown from the chest up, aiming a longbow. He is wearing a dark, patterned garment. The background is a clear blue sky. The bow is made of wood and has a string. The arrow is also made of wood and has a feathered fletching. The man's expression is focused.

Birth of Southern Africa is a Colonial Crossroads 14-day, ultra-private journey by private jet for those who care less about amenities and more about what a place does to them. From Cape Town's islands and vineyards to Zulu battlefields, Kimberley's diamond pits, Namibian deserts, the Okavango Delta and Victoria Falls, you don't visit history — you stand inside it. This is not a safari. Not a tour. It's a reckoning, crafted for 1–6 guests who understand that real luxury is perspective.

For those who measure value in perspective, not amenities.

Not a tour. A reckoning with how Southern Africa – and you – were made.

South Africa – Namibia – Botswana – Zambia

Over fourteen days, every movement is by private jet or helicopter; every landing is deliberate; every door you walk through has been chosen because it changes how you see this place. Day 1 opens with an airside VIP welcome in Cape Town and a quiet arrival beneath Chapman's Peak; Day 2 takes you by yacht and helicopter from Robben Island's unseen archives to Kirstenbosch's "green heist". From there the route threads through Constantia's slave-written cellars, Franschhoek's Huguenot myths, Zulu battlefields at Isandlwana and Rorke's Drift, Kimberley's diamond pits, Namibian deserts and San star-lore, the predator-rich Okavango Delta and, finally, the smoke and spirit of Victoria Falls.

This private-jet odyssey is built for those who no longer need another "luxury safari", but a journey that looks empire, resistance and legacy directly in the eye — where nothing is generic, nothing is shared with tour groups, and no layer of history, access or context is ever left off the table.
